FIXED LENS

- **Auto Focus** : a sensor, a control system and a motor to focus on an automatically or manually selected point or area.
- **Day & Night** : can see the picture during the day hours, when there is enough sunlight, and during the night in total darkness or minimum illumination.
- **HD Resolution** : capable of capturing high definition video surveillance footage up to 1080p resolution.
- **Varifocal Lens** : allows you to adjust between its top and bottom limits on its view angle. This means that you have the ability to manually set both the view angle and level of zoom.
